### Experience

- **Senior Technical Wizard - Wizards Guild**, Remote | Nov 2020 - Current
  - Standardized Transmogrification techniques across the guild, ensuring consistent and safe transformations of objects and creatures. This lowered onboarding time for team members swapping teams from 2 weeks to 3 days.
  - Developed advanced methods for maintaining the stability of transmogrified entities, reducing instances of unintended reversions. One customer saw a drop in unintended reversions by 30%
  - Led cross-disciplinary team to integrate Transmogrification with other magical disciplines, resulting in innovative hybrid spells to suite client specifications. This led to a 15% net cost saving at scale for the business.
  - Conducted workshops and seminars to train junior wizards in the intricacies of Transmogrification theory and practice.
- **Technical Wizard - Magic Transportation & Co**, Fairfax VA | Nov 2018 - 2020
  - Engineered enchantments for Transmogrification-based transportation, enabling rapid, safe, and seamless travel for magical beings.
  - Designed specialized transmogrifying containers for the secure transport of magical creatures, minimizing stress during transit.
  - Collaborated with regulatory authorities to ensure compliance with magical transportation regulations and standards.
  - Conducted research into Transmogrification efficiency, leading to enhancements that reduced energy consumption and improved performance.

### Projects

- **TransmutaCanvas: Living Art Installation** | Mar 2019 | [github.com/link-to-the-project](https://github.com/link-to-the-project)
  - Motivation was to explore the intersection of Transmogrification, art, and public engagement, creating an immersive experience that challenged traditional notions of static art
  - Developed intricate enchantments that allowed the artwork to shift in color, shape, and texture, captivating audiences.
  - Collaborated with local magical art communities to showcase the installation at a local magic festival attracting hundreds of spectators.

### Education

- **Arcane Haven School of Magic - MSc Transformation and Transmogrification** - 2017 - 2020  
(Estimated Graduation Month/year if applicable)
  - Research focused on the stable transmogrification of Titanium to Adamantium and applications in bonding with living bone tissue.
  - Worked as a lab technician with senior researchers to develop testing practices for monitoring metals during the unstable transformation phase transformation of metals during the high energy

**Skills:** Transmogrification, Transformation, MagicEditor+, Haskell, Git, JIRA Witchcraft, Make
